

Subject: Support Breaching Snake River Dam for Salmon and Orcas

Dear [Senator's Name],

I'm writing to urge your support for breaching the Snake River Dam. This action is critical to restoring salmon populations and saving the Southern Resident orcas from extinction.

The dam impedes salmon migration, leading to a decline in their numbers and threatening the orcas who rely on them for food. By breaching the dam, we can restore natural salmon runs and safeguard these endangered species.

Your leadership on this issue is crucial. Please take decisive action to protect our environment and wildlife for future generations.

Sincerely,

[Your Name]
